Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary compilants. Through a long series of years, and among most of the races of men it has riven higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to mitler forms of disease and to young children, it is at the same time the most effectual remedy that can be given for inclipient consumption, and the dangerous affections of the throat and lungs. As a provision against suddon attacks of Crossp. it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be invoked with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the discuss eccuned settled, have been completely cured, and the patient restored to sound health by the Cherry Pretoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing elso could reach them, under the Cherry Pectoral in small and frequent dose.

Singers and Public Speakers find great protection from it.

**Asthma* is always relieved and often wholly cured by it.

**Breachitits* is generally cured by taking the Cherry Pretoral in small and frequent dose.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure, For Fever and Acue, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, march, or missmatic poisons.

As its name implies, it does Curre, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zine, nor any other minoral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its curre in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the railest entre effected in obstinate Our pride is gratified by the acknowledgments we reactive of the raileal corres effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through minsumate localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable curves, where other medicines had failed.
